

SPHERICAL LOUDSPEAKERS

SL-20

Spherical Loudspeaker

SL-20

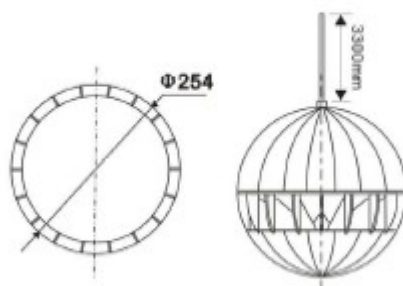

Modern styled spherical loudspeakers are true omni-directional devices, providing coverage angles of 360 degrees horizontal and 140 degrees vertical, giving an even dispersion over the audio spectrum. This excellent dispersion together with smooth frequency response and carefully controlled performance enable these speakers to offer solutions to many problems that arise in difficult acoustic applications.

Ideally suited for covering large open spaces such as, warehouses, open plan retail complexes, concourses, factories etc. These units are ideal for both speech and background music.

TECHNICAL SPECIFICATIONS

Rated power	20 W (8Ω)
Transformer power taps	30 / 10 / 5 W
Sensitivity (@ 1 m/1 W/1 kHz)	92 ± 3 dB
Maximum SPL	110 dB
Frequency response	130Hz - 15 KHz
Dispersion at 1000 Hz, degrees	360° horizontal and 140° vertical
Driver dimensions	8" (20.32 mm)
Dimensions (HxWxD)	Ø254
Weight	3.1 kg
Material	ABS plastic housing
Colour	White

CE RoHS

unit : mm
